

**Drug Information Directory/
Help and Support**

Stakeholder Kit.

Introduction.

This stakeholder kit helps promote two of our information and support services: the **Drug Information Directory** and **Help and Support**.

This kit will help you easily share information with your contacts, networks and communities to assist them in the search for alcohol and other drug information.

Drug Information Directory

This directory includes a collection of websites formally reviewed and rated out of five stars by the Alcohol and Drug Foundation. Search the directory to find our ratings, reviews and summaries of websites related to drugs and alcohol, mental health and health promotion. This directory is helpful for healthcare professionals, educators, researchers, and students.

Help and Support

Provides a comprehensive list of AOD support services available in Australia. The directory includes a short description and contact details of available services, which users can filter by service type and location. This directory is helpful for community workers, AOD workers and health professionals.
